

Asociación Estatal de Programas  
Universitarios para Personas Mayores

We are reaching the end of December 2017, and this reminds us about the importance of certain human values which are too often forgotten. From the Spanish National Association of University Programmes for Older Adults, we have been working together one more year, hand in hand, on lifelong learning, research and culture, and promoting such values as solidarity, inclusion, union, equality, dialogue, peace and hope, which help us to grow, to become better human beings, and to achieve a more cohesive and fair society.

We intend to continue along the same lines in 2018, with your support and collaboration, together making it possible for this academic and personal development project to develop even further within the framework of University Programmes for Older Adults.
